5773
2007 TOYOTA FJ CRUISER
Overlay Billet Grilles

>> READ AND UNDERSTAND ALL DIRECTIONS BEFORE STARTING

INSTALLATION INSTRUCTIONS

- Step 1) Remove the billet grilles from the box and identify the top grille from the bottom grille. Place over the factory grille to check the fit.
- Step 2) You may for a better look, want to mask off the factory grille and spray the Toyota logo black. This will hide the logo once the billet grille is in place.
- Step 3) Remove the hardware from the bag, place a Tinnerman clip on each of the tabs.
- Step 4) Set the lower grille into place in the bumper opening, Place a screw through each of the welded on tabs of the billet grille and reaching in from the backside place a tab with clip in alignment with the screw and tighten down.
- Step 5) Repeat the process with the top grille. Make sure when you tighten the grilles in place they are centered.
