NAME PLATE

COMPONENTS

- REAR NAME PLATE
- NO. 1 BACK DOOR NAME PLATE
- NO. 2 BACK DOOR NAME PLATE

- Non-reusable part
REMOVAL

1. REMOVE NO. 1 BACK DOOR NAME PLATE
   (a) Apply protective tape to the back door panel in the area around the No. 1 back door name plate.
   (b) Using an infrared light, heat the No. 1 back door name plate.
   **CAUTION:**
   Do not burn yourself with the heated back door panel or infrared light.
   **HINT:**
   Heat at 40 to 60°C (104 to 140°F) for 1 to 2 minutes.
   (c) Using a gasket scraper with its tip wrapped in protective tape, gradually peel the adhesive surface and remove the No. 1 back door name plate.
   (d) Remove the protective tape.

2. REMOVE NO. 2 BACK DOOR NAME PLATE
   (a) Apply protective tape to the back door panel in the area around the No. 2 back door name plate.
   (b) Using an infrared light, heat the No. 2 back door name plate.
   **CAUTION:**
   Do not burn yourself with the heated back door panel or infrared light.
   **HINT:**
   Heat at 40 to 60°C (104 to 140°F) for 1 to 2 minutes.
   (c) Using a gasket scraper with its tip wrapped in protective tape, gradually peel the adhesive surface and remove the No. 2 back door name plate.
   (d) Remove the protective tape.
