DESCRIPTION
The side airbag sensor LH and rear airbag sensor LH consist of parts including the diagnostic circuit and the lateral deceleration sensor.
When the center airbag sensor assembly receives signals from the lateral deceleration sensor, it determines whether or not the SRS should be activated.
DTC B1643/81 is set when a malfunction is detected in the side airbag sensor LH or rear airbag sensor LH circuit.

INSPECTION PROCEDURE

NOTICE:
In order to prevent unexpected airbag deployment, disconnect the following connectors before inspecting parts such as wire harnesses, if the application of tester probes to the center airbag sensor assembly connector is necessary.

1. Turn the ignition switch off.
2. Disconnect the negative (-) terminal cable from the battery, and wait for at least 90 seconds.
3. Disconnect the connector from the center airbag sensor assembly.
4. Disconnect the connectors from the steering pad.
5. Disconnect the connectors from the front passenger airbag assembly.
6. Disconnect the connector from the front seat outer belt assembly LH.
7. Disconnect the connector from the front seat outer belt assembly RH.

HINT:
Skip the following steps if side airbags and curtain shield airbags are not fitted.
8. Disconnect the connector from the front seat side airbag assembly LH.
9. Disconnect the connector from the front seat side airbag assembly RH.
10. Disconnect the connector from the curtain shield airbag assembly LH.
11. Disconnect the connector from the curtain shield airbag assembly RH.

(a) Check the "PAST DTCs" (See page RS-36).

OK:
DTC (PAST DTC) B1622/81 or B1632/81 is not output.

(b) Turn the ignition switch off.
(c) Turn the ignition switch on, and wait for at least 60 seconds.
(d) Clear the DTCs (See page RS-36).
(e) Turn the ignition switch off.

HINT:
• If DTC (PAST DTC) B1622/81 is output, proceed to the troubleshooting related to this output DTC (See page RS-70).
• If DTC (PAST DTC) B1632/81 is output, proceed to the troubleshooting related to this output DTC (See page RS-90).
• DTCs other than DTC B1622/81, B1632/81 and B1643/81 may be output at this time, but they are not related to this check.
